No date has been set to hear the appeal, but, since both riles are anxious for a definite settlement, it probable will be soon. One of the intangible rumors astir is that the appeal will never be heard, and that the cases against the "bookies" will be rolle prossed upon promise that the track will not be reopened in the future. However, no danger of a riot custs. The appeal automatically acts in stay of judgment, and the race track people are taking advantage of that fact.

Armed Mexicans Cross Border.

Austin, Texas, April 8.—Armed Mexican soldiers in numbers variously estimated from forty to eighty, crossed into the United States early Tuesed into the United States early Tues-day morning and paid a dashing, but peaceful, visit to the little Mexican settlement of Madero, Texas, on the Rio Grande, above Brownsville. This was the substance of a report from Mission, Texas, to Governor Colquitt to-night by D. W. Glasscock, State Legislator, who went to Madero to investigate reports that armed Mexi-cans had "shot up" the town and ter-

corized the inhabitants. Mr. Glasscock did not say to what Mexican faction the soldiers belonged, but stated that Major P. Trevino Oroxco, Constitutionalist commander in the territory opposite Madero, had made a statement denying that the men crossed the international boun-

Receipts for Fiscal Year Probably Will Exceed Sum Expected of New Tariff.

pected of New Tariff.

Washington, April 8.—Figures were made public in a Treasury Department statement to-night showing that customs revenue during the fiscal year, which ends June 30, 1914, almost certainly will exceed, the estimates made when Congress passed the new tariff law.

The statement, prepared by Assistant Secretary Malburn, in charge of customs, said:
"It was estimated that the receipts from customs for the fiscal year 1914, which included three months under the tariff act of 1299 and nine months under the present tariff act, approved October 3, 1913, would amount to \$270,000,000, resulting in a loss of \$49,000,000 from the customs receipts of the previous year.

"The total customs collections for the nine months Just ended amounted to \$225,500,000, 500, 500,000, 510,000 compared win the collections for the same period during the fiscal year ended June 30, 1913, as this loss is only one half of the estimated loss for the whole year, it is probable that the receipts for the fiscal year ending June 30, 1914, will exceed the estimate.

"It is to be noted that the loss in revenue during the months of languary and February of the public public of the collections for the same period during the fiscal year ending June 30, 1914, will exceed the estimate.

"It is to be noted that the loss in revenue during the months of languary and February.

fiscal year ending June 39, 1914, will exceed the estimate.

"It is to be noted that the loss in revenue during the months of January and February, 1914, amounted in round numbers to 36,090,000 and \$19,000,090, respectively. This was caused by the failing off of the duties paid upon sugar, as that commodily was retained in bonded warehouses pending the reduction of sugar duties on March 1, 1914. The custome receipts for these two months amounted to \$23,509,000 and \$17,509,000, respectively. The customs receipts for the month of March just closed were nearly \$20,000,000 as against \$27,509,000 for the corresponding month of 1918, showing a loss of but \$15,509,000, and a recovery of receipts as compared with February of this year of over \$3,009,000.

"In view of the above figures it now appears that a monthly average of less than \$15,000,000 for April, May and June, the remaining three months of the present fiscal year, would bring the total of customs receipts up to \$23,000,000, the original estimate for this fiscal year. It is probable that receipts for the three remaining months will exceed this average of \$15,000,000, and that the total receipts for the fiscal year will run over the estimate of \$270,000,000.
